

Skritnansky Rites Held In Oak Ridge

Andrew Skritnansky, Y-12's Methods Evaluation, died suddenly at his home in Oak Ridge, Monday, May 20. Prior to his anniversary date, November 19, 1945, in Y-12, he had served as a research chemist at Columbia University on the Manhattan Project.

Mr. Skritnansky is survived by his wife, Mrs. Rose Skritnansky, principal of the Daniel Arthur Rehabilitation Center; brothers, William, Olyphant, Pennsylvania; Anthony and Nicholas, Long Island, New York; sisters, Mrs. Mary Repsky, Olyphant; Mrs. Irene Nictula, Astoria, and several nieces and nephews.

Funeral services were held at St. Mary's Church Wednesday, May 22, at 10 a.m., with Father Thomas B. Woodley, officiating. A rosary was recited at 8 p.m., Tuesday, May 21.

Interment followed in the Cathedral Cemetery, Scranton, Pennsylvania.

Mr. Skritnansky was a member of the American Chemical Society and other professional organizations. The research chemist received his undergraduate studies at Pennsylvania State College, and took his masters degree at Virginia Polytechnic Institute.

Sincere sympathy is extended his family by fellow workers in Y-12.

U-T Grad School Sets Summer Curriculum

Registration Begins
Monday, June 10

The University of Tennessee Graduate School announces its summer calendar and schedule, beginning with registration Monday, June 10 from 6 until 7:30 p.m. Classes begin Tuesday, June 11.

Summer quarter courses to be offered are:

MATHEMATICS 454. Advanced Calculus.

MATHEMATICS 464. Calculus of Finite Differences.

PHYSICS 422. Electricity and Magnetism.

PHYSICS 599e. Seminar in Modern Physics.

Fall courses to be offered in Oak Ridge may include Chemical Engineering 511; Chemistry 442, 521; Mathematics 454, 565; Metallurgical Engineering 451, 591; and Physics 371, 461, 511, 521, 561, and 643.

Additional information may be obtained from the Registrar's Office, extension 4129.

Hovis, Neeley And McWhorter, Development, Receive Customary \$1 For Patent Applications

Evening School Lists Summer Quarter Courses

The University of Tennessee, in collaboration with the Carbide educational program, has included in the summer schedule for evening school the following courses:

Algebra Refresher

Trigonometry

Basic Engineering 113

Math 121 (Intro to Analysis)

Registration begins Tuesday,

June 4 at the Oak Ridge High School and classes commence June 10. It is important that all persons interested in any of the above courses register promptly. If too few students register to make up a class in any course per UT minimum requirements, that course will not be taught. Therefore, those wanting any of these courses should spread the word around to assure sufficient enrollment.

Interested Y-12ers should contact Frank Fuis Jr., extension 7-8831, for coordination.

City Elections Set Tuesday, June 4

Oak Ridge residents are reminded of city elections, set for next Tuesday, June 4. Members of the City Council are to be named, as well as delegates to the Charter Commission.

Participation in local elections is as vital to America's strength as the voting booth is in national races. Local governments constitute the backbone of our system of government. To fail it in responsibility is to fail America where it hurts the most!

MORE UNITED STATES ONE DOLLAR patent applications are added to the growing list of Y-12 "Eli Whitneys and Edisons." Last week, Y-12 Plant Superintendent Roger F. Hibbs presented, from left, Victor Hovis Jr., his "repeat" on patent applications. Development Division Superintendent William K. Whitson Jr. added Arthur C. Neeley and William C. McWhorter to the illustrious long list.

Three more patent applications were gained last week by Y-12ers as the Development Division produced patentable applications by Victor H. Hovis Jr., Arthur C. Neeley, and William C. McWhorter.

Victor Hovis, Mechanical Development, repeats as an "inventor"

New Facility Is Added To Plant

A new Nitrogen Generating Facility began production last week in Y-12. S. R. Sapirie, Manager of the Atomic Energy Commission's Oak Ridge Operations, said the new facility will produce high-purity nitrogen for programs in the plant.

Nitrogen is used as a blanket gas in uranium casting and melting furnaces, as a refrigerant, and for a number of other research and production purposes.

The facility was designed and built by Project Fabrication Corporation of College Point, New York, under a contract for \$519,526. The new facility, built adjacent to a smaller nitrogen unit, has a capacity of 12,000 standard cubic feet per hour of gaseous nitrogen, and a similar capacity for liquid nitrogen.

Nation Mourns Dead On Memorial Day

Tomorrow, Thursday, May 30, is an official holiday for the Y-12 Plant. No employee will be required to work except those needed for the protection and continuous operation of the plant.

Memorial Day is that day set aside when the nation remembers those who "gave the last full measure" in defense of their country. Americans sleep in "honored glory" from Normandy to Iwo Jima . . . from Anzio to Alaska.

"If ye break faith with us who die

We shall not sleep, though poppies grow

In Flanders fields."

on his patentable machining tool, to be used in mechanical operations. Hovis is a graduate of the Georgia Institute of Technology, having also attended Ohio State University.

He came to Y-12 March 1, 1958, after hiring in at the Oak Ridge Gaseous Diffusion Plant, July 1, 1953. He is a native of Lamar, Colorado. A veteran of the United States Army, he lives at Route 3, Kingston.

Arthur C. Neeley, Metallurgical Development, files patent application on his "Highly Densified and Machinable Tungsten-Iron-Nickel Alloy." Neeley came to Y-12 August 2, 1954. He holds a BS degree in Industrial Engineering from Columbia University, and has done graduate work at George Washington University. He served in the United States Navy from 1943 until 1946.

Neeley lives with his family at 110 Orchard Circle, Oak Ridge. He was born in Salt Lake City, Utah.

William C. McWhorter's development bears the title "Actinide Carbide Spherical Particles and Method for Preparing Same." McWhorter, Chemical Engineering Development, a native Tennessean, was born in Knoxville. He was educated at Vanderbilt University, where he received his degree in chemical engineering.

A veteran of the United States Navy, he served aboard the USS Thurban before coming to Y-12 July 18, 1960.

The development engineer lives at 216 North Purdue, Oak Ridge.

Each of the three development men received the customary one dollar, accompanied by a letter of commendation from Clark Center, Union Carbide Nuclear vice president.

PLAUDITS FOR Y-12'S SAFETY PERFORMANCES through the year 1962 were recently awarded in the plant. At left is the Award of Merit for the 2,388,635 man-hours without a lost-time accident in 1961 and 1962 given by the United States Atomic Energy Commission. Clarence Johnson, Safety Department's head, receives the Union Carbide Corporation citation in recognition for the 4,649,031 hours without a lost-time accident from March 22 through August 7, 1962. (A close-up of the Union Carbide plaque can be seen on Page Four.) Roger F. Hibbs, Y-12 Plant Superintendent, makes the presentation.

Miss Margaret Lynn Taylor

TAYLOR-HOLT

The engagement of Miss Margaret Lynn Taylor, Production Control, is announced by her parents, Mr. and Mrs. George W. Taylor, Route 2, Clinton. The prospective groom is Mr. Robert Lynn Holt, the son of Mr. and Mrs. Ralph A. Holt, Fowler Street, Clinton.

Both the bride and groom-to-be are graduates of Clinton High School. Mr. Holt is a veteran of the United States Army, and is employed by Sears, Roebuck Company, Knoxville.

The wedding will take place at 7:30 p.m. at the Black Oak Baptist Church, Clinton, with the Reverend Delbert Payne officiating.

The couple is not sending formal invitations, but cordially invites friends to attend the ceremony.

ASTME To Tour Southern Bell

The American Society of Tool and Manufacturing Engineers will meet on Tuesday, June 4, 1963, at the Southern Bell Telephone Building at the corner of Broadway and Magnolia Avenue, Knoxville. Time for the tour is 8 p.m.

Mr. C. M. Callis, Public Relations Manager for Southern Bell, will host the group in a tour of the intricate facilities of this modern communications installation. The tour will include such points of interest as the equipment for direct distance dialing, the television, radio micro-wave system, and all automatic relay boards.

Members, their ladies, and friends are urged to be present for the interesting tour.

Aim for no security infractions.

Actual playing time in a recent big league baseball game was timed at 10 minutes. There are adult men, however, in sound mind, who will look at the 10 minute action between two teams from hundreds of miles away . . . for two hours at a stretch.

Strange is the working of the human mind!

The workings in Y-12 includes babies, vacations, and what-have-you . . . namely in

FINANCE AND MATERIALS

The Mail Room reports Joyce Gillihan taking it easy at her home in Oak Ridge this week.

Timekeeping keeps in the news with G. H. Lovely vacationing at home in Lake City.

R. R. White, Microreproduction and Engineering Services, vacationed last week, nobody knew exactly where . . . Sporting new cars are E. W. Cook and C. W. Clower, both handsome, too . . . the cars, not the men!

An apple a day may keep the doctor away, but a laugh a day will keep the psychiatrist away!

SPECIAL PROJECTS

George Lockhart and spouse Marshall had to try out their new bug (recently purchased) . . . so they took off to New Orleans to visit their son . . . then off to Florida on another jaunt.

Visiting in Norfolk, Virginia are Frances Hamm and Marilyn Barnhill (she's in Beta Two Alloy). Marilyn's sister lives in Norfolk and they were off to visit her.

Visiting in middle Tennessee for good cooking among relatives are Charles Mayberry and his family.

Some wag has recently suggested that the movie "Cleopatra" be given the anatomy award.

INDUSTRIAL RELATIONS

The Safety Department welcomes Nola Cherry, transferred from Laboratory Operations . . . also bids farewell to Floyd Shook, who transferred to Production Inspection.

Michael Todd Ballew

Now here's a cutie! He is Michael Todd Ballew, age four months, and the son of Mr. and Mrs. Gene Ballew, Alcoa. His grandpa, H. J. Ballew, is in Y-12's Fire and Guard Department. His other grandpop is Homer Peterson, Alcoa . . . who is just as proud of the little fellow.

Women are a paradox—especially married ones. They try to fatten their husbands while thinning themselves.

MECHANICAL OPERATIONS

From the A-2 Shop, Willie Greene returned from vacation with a heavy sun tan. He intended to spend most of his time on the lake, but with mowing the lawn and doing chores around the house, he had very little time to loaf.

Catching up on work around

the house recently was Paul McGinnis.

Away on an emergency visit with his daughter was H. E. Cornell, to Lexington, Kentucky. She is doing fine now, however.

C. A. Teal and F. Bates were on vacation last week. Reporters will have to check this week to see where they went or what they did last week!

The new hire in the Shop these days is R. H. Smith. W. V. Hensley transferred in last week also. R. L. Crumley left going to Beta Two.

From F Area it's told that Homer Park is spending part of his vacation fishing. Boys in the shop hope he catches as many whoppers as he is going to tell he did when he returns.

Welcome back to R. S. Hayes who has been off ailing with various and sundries.

Tom Sparks is on an eight-week active military duty with the Air National Guard in Texas. The guys in F Area send him their best regards and envy him the nice cool climate which he will be "relaxing" in for the next two weeks.

Visiting relatives recently in Detroit was B. D. Duncan . . . M. G. Hatfield, M. Jennings, J. D. Starnes and L. D. Copeland have taken a week to rid themselves of spring fever, a most contagious disease.

Shoppers send best wishes to Mrs. J. F. Chapman and Mrs. J. E. Gilstrap who are in the Oak Ridge Hospital.

It's also hoped that Chester Crowe can soon be back after a lengthy illness.

M-Wing folks send sympathy to J. W. Weaver whose grandmother, Mrs. Lizzie Davis, died May 21 in Clinton.

B. D. Cantrell and his wife who works for Y-12 Security (Sarah), spent last week in their summer cottage on Watts Bar Lake boating, swimming and fishing. Since the lake came up he probably went all the way by boat from his home in Clinton. (Mildred, the lake isn't that high, yet!)

W. H. Tipton is spending his vacation at home in Seymour, Tennessee, working around the house.

Beta Four tells that C. E. Hensley has a new addition to his family . . . a new calf. The facts as to weight, sex, color and breed will follow. (Perhaps a picture, too!)

Betty Ward spent one day fishing and caught a fish which she says was "real big" . . . since it was the first one she ever caught it probably looked like a whale. To a regular fisherman, it probably wouldn't even make good bait. But, congratulations, anyway, Betty. Get in the next rodeo.

When springtime comes everyone gets the urge to move and change, and it seems everyone wanted to move and change to Beta Four machine shop. Welcome in to J. L. Gilliam and R. J. Mustin. Others transferred in are: J. C. Montgomery, G. C. Casey, J. R. Johns, Messrs. Goodykoontz, Hatmaker, Lynch, VanBever, J. R. Collins, S. C. Loope, E. F. Gibson, R. M. Westcott, J. D. Kile, H. Y. Woodson, C. C. Crouch, J. W. Dyer, M. R. Elrod, H. L. Smith, W. F. LeConte, F. D. Livey, R. D. McJunkins, W. G. Seymour, H. M. Salyers and M. G. Vance. Ed Costner, H. V. Tripp and B. M. Steed went in the other direction. In the shuffle a new foreman was gained, Tom Sullivan, and a retreaded one, C. W. Craven.

H. E. Alvey spent six days of nice spring weather building his retaining wall. On the seventh day the winds blew and blew and the rains came and the wall still

SOME OF THE GIRLS got together last week to surprise Carolyn Sharpe with a shower, held Wednesday, May 22, at the Oak Terrace, Oak Ridge. (Carolyn is seen in the front row, seated, second from the left.) Several beautiful items for the nursery were among the gifts presented the honoree. Caroline will leave Production Control on Friday, June 14.

stood. That proves the do-it-yourself man is not to be laughed at.

Beta Two boys on the C Shift are still wondering what the other fish looked like, when W. S. Forbes won a fishing reel as first prize with a three-ounce crappie!

Deidre Lori Davis

This doll belongs at the house of D. A. Davis, A-2 Shop. She is only two months old and hasn't been to Charm School a single day. But she has already learned to turn the charm on, hasn't she?

Brian Keith Vickery

Another fine baby in the Y-12 household is the jolly little one. He's Brian Keith Vickery, the grandson of E. J. Vickery, A-2 Shop. His ma and pa are Jack and Phyllis Vickery. Happy-looking, isn't he?

After a long absence, here is some news from Production Control. A big welcome in is issued to Frank Diggs, Duane Bennett, Jim Doan, who are new to the group, but are transfers from other departments. It's also nice to have pretty Carolyn Gardner who is working in the Materials and Tools Section.

Get well wishes to several folks: Harold Babb's sister in Chattanooga (who has been very ill) . . . To Greeta Luallen's daughter in Clinton . . . Also to Ray Curtis' wife who underwent surgery recently.

Elinor Charpie has been entertaining her daughter and three-

year-old granddaughter and their friends from East Lake, Ohio.

The Ernie Kennedys are enjoying daughter Joyce Ann and grandson's visit prior to their moving to California. Joyce Ann's husband is in the Navy and will be stationed near San Francisco for two years.

Marcus Stringfellow vacationed in Louisiana with relatives . . . Duane Bennett took in Florida . . . Milt Carey and spouse visited their daughter, son-in-law, and granddaughter, of course, in Fort Hood, Texas recently . . . Emily Howell and Mary Ellen Boyd took a few days at home . . . Charles Beach was on military leave for two weeks, but that was not vacation!

Ray Fletcher has a new type suntan called the Shriner Suntan . . . light on top and red on the bottom. Could it have been from selling newspapers?

Lloyd Sheffield took his Sunday School class to Gatlinburg recently where they picnicked and then toured the Christus Biblical Gardens.

Margaret Taylor has a new glow about her . . . third finger, left hand. See story elsewhere.

Another story that needs some looking elsewhere is the Emily Howell, Greeta Luallen and Carolyn Gardner planned shower for Carolyn Sharpe in the Starlight Room of the Oak Terrace. At least 35 guests were expected to attend.

SHIFT SUPERINTENDENTS AND UTILITIES

A few vacationers around the grounds include R. F. Farmer and R. D. Freels working around home . . . L. M. Kittrell didn't reveal his plans.

Some TV shows are so dull, even the baby-sitters are beginning to complain. Let's get outten of here!

'Oklahoma!' Music In Pops Concert

A special Pops Concert is scheduled for Saturday, June 1, at 8 p.m. in the James White Memorial Auditorium, Knoxville. The Knoxville Choral Society will write finis to a highly successful season with a staged adaptation of the musical "Oklahoma." "A superb performance," said the Knoxville News-Sentinel.

Jim Warner, Special Projects, has recently been elected president of the 11-year-old society. Warner says that tickets to the Choral Society's "Oklahoma" will be available at a special booth at Miller's Henley Street store. The admission is only \$1.50 per adult tickets, 75 cents for students.

Selections from "South Pacific" and a group of six songs from other lands will round out the program in the vacation theme. A fashion show will be presented on the stage, featuring all the latest in vacation apparel.

6-11524 thru 6-11536

THE BIG NIGHT FOR Y-12ERS came Friday, May 17, as the big Spring Dance came off without a hitch. Various floor scenes and table-hopping panoramas are in evidence in the above photographs. In the lead-off shot, Dave Phillippi stands with vocalist Dottie Swanson

with the barbecue grill he won on ticket stub number 424. Phillippi is in Y-12's Product Certification. Mrs. Vaneta Segaser, whose husband is in Oak Ridge National Laboratory's Reactor Division in Y-12, took the picnic ice-chest with stub number 371. Next, Eddie Roberts Jr.,

Radiation Safety, poses with Miss Swanson and Y-12 Plant Superintendent Roger F. Hibbs with the outdoor lounging set he won. Eddie had ticket number 222. The remaining pix show Y-12ers with their best foot forward, or just relaxing in their best bib-and-tuck.

5 Pistoleers Show For 1st Summer Match

Five fine fast guns showed up for the first relay in the summer league for 22 Calibre Pistoleers. It is not too late to enter, however, if other Y-12ers are interested in the Summer Pistol League. Firings take place every Tuesday beginning at 6 p.m. at the Oak Ridge Sportsman's Association's range, in the west end of town.

Would-be participants need only show up at the range next Tuesday. More details may be had by calling Wendell Less, extension 7507.

In last week's firings, G. L. Davis had a high handicap tally of 289.794. Less followed with 289.552. V. D. Holt fired 284.119, and G. W. Martin added his to 288.998. Shooting scratch were T. C. Swindell, who had a total scratch score of 235, and T. E. Hudson, who had 207.

E. W. Bailey, J. V. Ledbetter, R. L. Matheney and L. A. Schular did not appear for the first match, but may make up firings at subsequent shoots.

At Least Girls Get Asked Twice To Marry

Most girls, by the time they reach 30, have been asked at least twice to marry . . . once by their mother . . . once by their father.

Congratulations to the following Y-12ers who will celebrate anniversaries with Union Carbide within the next few days.

20 YEARS
J. Clyde Bowles, Special Projects, May 26.

Roger F. Hibbs, Y-12 Plant Superintendent, June 1.

15 YEARS
Jack B. Henry, Area Five Maintenance, June 2.

John L. Hutton, Property, June 2.

10 YEARS
James L. Hicks, Production Machining, May 31.

Edward R. Garrett, Process Maintenance, June 1.

Ralph D. Holsted, Chemical, June 1.

Herbert D. Runge, Radiation Safety, June 1.

William E. Elliott, Area Five Maintenance, June 1.

Leonard C. Miller, A-2 Foundry, June 1.

Maynard Duncan, Building, Grounds and Maintenance Shops, June 2.

Mary J. Goss, Plant Records, June 3.

Arthur D. Dean, Process Maintenance, June 3.

William H. Miller, Process Maintenance, June 4.

Your knowledge of classified matters is always with you . . . take good care of it.

Y-12 E Wingers Take An Early Lead In Fledgling Slo Pitch Loop Standings

All Scheduled Games Get Played As Rains Stay Away From Softball Players' Doors

The Slo Pitch League got rolling into its second week with all nine scheduled games played . . . plus one make-up game from the previous week.

The Peons ran away with the Tabs in last Monday's initial game, defeating them 21 to 0. Home runs were earned by Peons' Roe, Brown (2), Cheek, Thomas, and Dyer (2). Thomas had two three-baggers also, and a double. Six errors compounded by the Tabs added to the whopp-sided score.

Team	R	H	E
Peons	21	21	2
Tabs	0	4	6

Batteries: Peons: Collins and B. Wright. Tabs: Ryder and R. Jones.

The Eagles clawed the Cherokees, taking scalps in the order of 17 to 11, in the second game Monday. For the winning Eagles it was Evans with a homer, Inklebarger with a triple . . . Watts, Koon and Bell with two-base hits. The losers saw Clark and J. Blanton get home runs . . . Sliger earned a triple. Stair, Clark and Spradlin had two-baggers.

Team	R	H	E
Eagles	17	21	6
Cherokees	11	13	6

Batteries: Eagles: Bell, Cadden, Miller and Wigginton. Cherokees: Clark and Laurendine.

Monday's final game featured the Data Processing boys, from ORGDP, in their defeat of the Big Shop team, 19 to 8. Bolinsky homered twice for the winners, and Owens once. Neir, Graham, and Rhymer had triples. For the Big Shop team, it was Hart with a triple; Teno, Wright and Hart with a double each.

Team	R	H	E
Data Processing	19	23	2
Big Shop	8	16	16

Batteries: Data Processing: Fourman and Rhymer. Big Shop: Edwards, Rhea and Brucher.

Tuesday's action began as the Mets, from ORGDP, skunked the Slipsticks 15 to 0. For the winning team it was Whittsley and Slatery with homers; Lamberth and Keith with triples and Witt with a double. For the Sticks, no extra base hits were earned in the meagre tally of four made.

Team	R	H	E
Mets	15	19	2
Slipsticks	0	4	5

Batteries: Mets: Iacovina and Keith. Slipsticks: Anderson and Fogg.

The Rebs took two big innings in the second game to defeat the Big Shop team 18 to 1. Peters had one home run, Strike two.

Parrot tripled and Riggs doubled . . . all for the winning Rebs. No extra base hits were tallied by the losing team.

Team	R	H	E
Rebs	18	20	0
Big Shop	1	10	5

Batteries: Rebs: Lawhorn and Harrell. Big Shop: Fowler and Rhea.

The final game Tuesday saw Data Processing process the Eagles, Y-12, to the tune of 14 to 6. The only home-run of the game was earned by the Eagles' Stevens. Bolinsky doubled for the winning team.

Team	R	H	E
Data Processing	14	11	8
Eagles	6	9	14

Batteries: Data Processing: Fourman, Rhymer and Howell. Eagles: Bell and Hulsey.

The make-up game Wednesday night featured the Peons' rout over the Bunt Boys, both teams from Y-12. Grand slam triples were made by Bill Grubb, Roe, Brown, and two for Mac Wright. Brown, Mac Wright homered and Cheek had two big ones. Horton doubled for the only big hit on the losing side . . . the rest were singletons.

Team	R	H	E
Peons	33	28	2
Bunt Boys	3	7	10

Batteries: Peons: Rutherford and B. Wright. Bunt Boys: Dunlap and Long.

Thursday's games began with the B Shift gang completely trouncing the Bunt Boys 22 to 0. Hensley, Peters and Hinton had big four-baggers for the B Shift team for the only long ones of the game.

Team	R	H	E
B Shift	22	19	3
Bunt Boys	0	7	8

Batteries: B Shift: Collins, Roberts and Martin. Bunt Boys: Perry, Dunlap, and Long.

The Slipsticks defeated the Tabs in game number two, 18 to 10. Jones and Belvin homered for the winning Tabs . . . Rose for the Sticks. The Tabs had a total of 11 errors, which didn't help their cause any too much.

Team	R	H	E
Slipsticks	18	17	4
Tabs	10	13	14

Batteries: Slipsticks: Febbo and Fogg. Tabs: Harris and K. Jones.

The final game of the week saw the E Wingers defeat the Peons 10 to 8 in the closest game of the five-day period. Grubb and Davis had three-baggers for the losers. Brown, Bates and Thomas had doubles. Sise had a double for the winning Wingers.

Team	R	H	E
E Wingers	10	7	3
Peons	8	14	4

Batteries: E Wingers: Sise and Hyatt. Peons: Collins and Davis.

League standings follow:

Team	W	L
E Wingers	3	0
Rebs	2	0
B Shift	1	0
Data Processing	2	1
Eagles	2	1
Mets	1	1
Peons	2	2
Tabs	1	2
Big Shop	1	2
Slipsticks	1	3
Cherokees	0	2
Bunt Boys	0	2

Argentine Research Is Physics Seminar Topic

Enrique Silberman, of the Physics Department, University of Buenos Aires, Argentina, will conduct the Oak Ridge National Laboratory Physics Division seminar Friday. He will discuss "Physics Research and Training in Argentina."

The seminar is set for 3:15 p.m. Friday, May 31, in the East Auditorium of the ORNL 4500 Building.

ONLY OFFSPRINGS

The celebrated Dutch painter of portraits, Frans Hals, had seven sons . . . not too remarkable a feat. But all seven of his sons were artists also.

Carl Dorr Is Wallace Hills' Top Tee-Man

Y-12 golfers lined up 127 strong for the second tournament of the year, held again at the Wallace Hills Greens, Maryville. Carl Dorr, golfer par excellent, took the tournament with a one-over par 73. Close scratch scores saw K. E. Thomas and Frank Kennedy with 76 each, J. E. Bartholomew with a 77, Newt Hamby a 78, Paddy Peckman and Jim Beckett each with a 79.

R. P. (Preston) Wallace, in the third flight, had an eagle on the 17th, par-five hole . . . a distance of 465 yards.

In the first flight, in scratch play, Dorr's 73 was low . . . followed by George Wylie, 75; Bob Loy, 76; and W. C. Collins, 78. Handicap-wise it was K. E. (Cotton) Thomas, 68; Frank Kennedy and J. E. Bartholomew, 69; Bill Wilburn and Tudor Boyd, 74. Paddy Peckman and Newt Hamby tied for the most pars in flight one with 13 each!

SECOND FLIGHT

C. F. Peterson was low in scratch with 80; L. W. Miller followed with 81 . . . Allen True, E. N. Rogers and Frank Tiller, all had 82. In handicap scoring, Dick Wyrick scored a low 67, R. G. Spurling, 68; Kark Kahley and J. D. McLendon each had 70. Most pars were earned by W. C. Hoppe and J. C. Bowles with 12 each.

THIRD FLIGHT

A tie resulted in scratch lows in the third flight . . . as R. P. Wallace and Walter Sherrod scored 81 each; John Evans scored 85; and J. F. Vance tallied 88. On the handicap scoreboard it was Herman Butler, 66; Tom Perry, 68; S. D. Peters, 70 and W. A. Rutherford 73. The most pars were taken by J. P. Smith and C. C. Morgan, nine each.

FOURTH FLIGHT

Ed Del Grande took the low scratch score in the last flight with an 85. He was followed by Bill Hatmaker, 90; Clyde Smith, 93; Carl Selvidge and O. C. Willard, each with 97. Handicap winners were R. S. McGinnis and W. P. Mattingly, 70 each; Hugh F. Henderson, 72; and Jerry Babb, 73. The most pars were taken by Martin Taylor and J. D. Robertson, with five each. This tie saw the four divisions of golfers all tie with most pars in each flight . . . in what was called a "dandy" of a tournament, despite the threatening weather.

A cloud does obscure the play slightly. One unidentified golfer pulled a cart onto the greens, causing ugly track-marks because of the damp sod. This is against course rules . . . against Y-12 golf rules. Please, Mr. Golfer, DON'T DO THAT.

Husband-Wife Baby Golf League Maybe

The Putt-Putt League for Y-12 "baby" golfers gets underway tonight, Wednesday, May 29. Another league is being considered if interest is shown. Y-12 husbands may golf with their non-Carbide wives . . . or Y-12 wives may golf with their non-Carbide husbands.

If enough husband-wives teams are entered the same type play in effect in the Putt-Putt League will be put into action for the couples league to be played on Friday nights.

If you and your wife, or you and your husband (depending, naturally, on your sex) wish to enter the Couple's Putt Putt League, just give Recreation a ring, at extension 7109.

Indiscretely spoken words can nullify elaborate security precautions.

UNION CARBIDE

Distinguished Safety Performance

by the employees of

Y-12 Plant - Union Carbide Nuclear Company

for working 4,649,031 employee hours without a disabling injury

March 22, 1962 - August 7, 1962

Presented by Union Carbide Corporation

NO DISABLING INJURY ALL SPRING and through part of the summer brought the Y-12 Plant this plaque from Union Carbide Corporation. The period actually started March 22 and extended through August 7, last year. The plaque was presented the Safety Department last week in Y-12 Plant Superintendent Roger F. Hibbs' office.
